Recommendations!!

Three Steps for All Swimmers

Keep germs from causing illnesses (RWIs) at the pool:

- **Please** don't swim when you have diarrhea. You can spread germs in the water and make other people sick.
- **Please** don't swallow the pool water. Avoid getting water in your mouth.
- **Please** practice good hygiene. Shower with soap before swimming and wash your hands after using the toilet or changing diapers. Germs on your body end up in the water.

Three Steps for Parents of Young Kids

Keep germs out of the pool:

- **Please** take your kids on bathroom breaks or check diapers often. Waiting to hear "I have to go" may mean that it's too late.
- **Please** change diapers in a bathroom or a diaper-changing area and not at poolside. Germs can spread in and around the pool.
- **Please** wash your child thoroughly (especially the rear end) with soap and water before swimming. Invisible amounts of fecal matter can end up in the pool.

All visitors to Splashville must abide by all the rules, regulations and City Ordinances in order to continue a safe and healthy environment. Splashville will close for inclement weather when thunder or lightning is detected inside 10 miles of the facility. A refund will NOT be given for inclement weather, please check the forecast before coming to the facility. If at anytime you feel or see anything that disrupts a safe and healthy environment, please contact us immediately. Splashville may close without notice for chemical adjustments to the pool. We apologize for any inconvenience this may cause.
